

Backup for Endpoints

Ensure data protection measures for endpoints of Windows and Mac against disaster and system failures with Vembu Backup for Endpoints. Vembu offers File and Folder level backups of Windows & Mac endpoints with end-to-end encryption of backup data. With Vembu, you can ensure continuous data protection by running backups continuously.

Customer Quotes

"The Vembu solution has increased Lentner Technology Integrator's bottom line for cloud backup services from \$1 per GB up to \$7 per GB. This has proved to be one of the most profitable services in our lineup offered to clients. In total, Vembu BDR has saved our clients an estimated half a million dollars in lost revenue from data loss last year."

**- Sean Lentner, CIO,
Lentner Technology Integrators**

Vembu Portal

It is an all-in-one portal to register & manage Vembu Products & Services with the options like:

- Billing
- Invoice
- Licensing
- Account Management

Key Features

Files/Folders Backup: Backup individual files and folders from your Windows or Mac endpoints to the Vembu BDR Backup Server for free.

Flexible Scheduling options: Vembu provides Continuous Data Protection for backing up files and folders on a minute-by-minute, hourly, daily, or weekly basis.

Interruption-free Backup: After an interruption, Vembu will intelligently resume the backup from where it left off.

Deleted File Retention: Retain any number of deleted files/folders based on its version count or the number of versions created within a time frame.

In-built Compression & Encryption : All backups are compressed by the VembuHIVE file system & encrypted using the AES-256 bit algorithm both in flight and at rest.

Restore anywhere: Instantly restore the entire backup files/folders to the original location or an alternate location.

Bandwidth Throttling: This feature allows you to throttle the speed of the backup data transfer for a selected time, and helps in reducing the network traffic.

Email Notification: Enable email notifications to receive notifications about the current status of the configured backups (like success, failure, missed, etc.)

Getting Started

Download Vembu BDR Suite and Start the 30 days free trial version. After the trial period, you can either opt to purchase the product or continue using the free edition.
